Reporting controls

Period, audience, currency, accounting basis, data cutoff, approval, version and limitations.

Metrics: [actual] | [target] | [variance] | [period]

Evidence: [source/version] | Owner: [name]

Narrative: [change -> implication -> action]

Executive assessment

Material change; evidence; company implication; management response; priorities.

Metrics: [actual] | [target] | [variance] | [period]

Evidence: [source/version] | Owner: [name]

Narrative: [change -> implication -> action]

Prior commitments

Deliverable, owner, original deadline, outcome, evidence and carry-forward action.

Metrics: [actual] | [target] | [variance] | [period]

Evidence: [source/version] | Owner: [name]

Narrative: [change -> implication -> action]

KPI scorecard

Actual, target, absolute/relative variance, comparable period, definition version and owner.

Metrics: [actual] | [target] | [variance] | [period]

Evidence: [source/version] | Owner: [name]

Narrative: [change -> implication -> action]

Financial statements

Income statement, balance sheet and cash-flow statement; actual vs budget; preliminary/reviewed basis.

Metrics: [actual] | [target] | [variance] | [period]

Evidence: [source/version] | Owner: [name]

Narrative: [change -> implication -> action]

Cash and runway

Reconciled unrestricted cash; operating burn; base/downside/upside; reserve breach date; scenario assumptions.

Metrics: [actual] | [target] | [variance] | [period]

Evidence: [source/version] | Owner: [name]

Narrative: [change -> implication -> action]

Commercial pipeline

Stage movement; recurring vs one-time values; aging; probabilities; concentration; losses.

Metrics: [actual] | [target] | [variance] | [period]

Evidence: [source/version] | Owner: [name]

Narrative: [change -> implication -> action]

Institutional delivery

Contracted, authorized and production-enabled states; dependencies; rollout evidence.

Metrics: [actual] | [target] | [variance] | [period]

Evidence: [source/version] | Owner: [name]

Narrative: [change -> implication -> action]

Unified product workflows

Screens connected to capabilities, source data, policy, receipts and evidence. Actual readiness by domain.

Metrics: [actual] | [target] | [variance] | [period]

Evidence: [source/version] | Owner: [name]

Narrative: [change -> implication -> action]

Course Studio

Authoring, release, submission, feedback and human authority; private draft vs published content.

Metrics: [actual] | [target] | [variance] | [period]

Evidence: [source/version] | Owner: [name]

Narrative: [change -> implication -> action]

Privacy and operational assurance

Identity, consent, devices, access, accessibility, recovery; evidence and outstanding findings.

Metrics: [actual] | [target] | [variance] | [period]

Evidence: [source/version] | Owner: [name]

Narrative: [change -> implication -> action]

Risk and governance

Residual likelihood/impact; owner; mitigation; conflicts; policy exceptions; decisions elsewhere.

Metrics: [actual] | [target] | [variance] | [period]

Evidence: [source/version] | Owner: [name]

Narrative: [change -> implication -> action]

Management requests

Specific introductions, reviews, recruitment or funding support; required dates.

Metrics: [actual] | [target] | [variance] | [period]

Evidence: [source/version] | Owner: [name]

Narrative: [change -> implication -> action]

Next period and evidence

Commitments, dependencies, acceptance tests, source/version index and reporting limitations.
